TECHNICAL INFORMATION

Dr. Peter Megaw, Ph.D., C.P.G., the Company's Chief Exploration Advisor and Qualified Person as defined by National Instrument 43-101 *Standards of Disclosure for Mineral Projects*, reviewed the technical aspects of the exploration projects described herein and is responsible for the design and conduct of the exploration program and the verification and quality assurance of analytical results. PART 2 SUMMARY DESCRIPTION OF BUSINESS

1 What is our business?

Reyna Silver is a growth-oriented junior exploration and development company. The Company focuses on exploring for high-grade, district scale silver deposits in Mexico and the United States. Reyna Silver's principal properties are the Guigui property ("**Guigui Project**") and Batopilas property ("**Batopilas Project**") located in Chihuahua, Mexico. Guigui Project covers the interpreted source area for the Santa Eulalia Carbonate Replacement District and Batopilas covers most of Mexico's historically highest-grade silver system. The Company also has an option to acquire 100% of the Medicine Springs property ("**Medicine Springs Project**") in Nevada, USA as well. In addition, with Reyna Gold Corp. (TSXV:REYG) on a 50/50 basis, Reyna Silver has an option to acquire 70% of the Gryphon Project (as defined below) in Nevada. The Medicine Springs Project includes a potentially significant CRD-continuum system, and the Gryphon Project contains the potential for Gold, Silver and Critical metals too. Reyna Silver also has interests in the early stage La Durazno and Matilde and La Reyna mineral properties in Mexico.

2 Recent developments

In June 2023, the Company reported the filing of 210 new claims at the Medicine Springs Project. These additional claims bring the Medicine Springs Project total to 6,561 ha.

In June 2023, the Company reported the commencement of drilling at its Batopilas Project. The 3,000 m drilling program tested targets generated over the prior year following recognition of the overlapping gold and silver mineralizing events.

In August 2023, the Company reported the commencement of drilling at the Medicine Springs Project. The planned 3,000 metre campaign built on the 2022 reconnaissance drilling program, which found high-grade distal-style mineralization in a thick carbonate host rock package-important indicators of a significant CRD.

In September 2023, the Company reported multiple, near-surface, high-grade, native silver-bearing intercepts in three of the initial holes of its 2023 Batopilas Project drilling campaign. Intercepts included the Company's widest to date (BA23-58: 9 metres of 616 g/t Silver within 30 metres of 218 g/t Ag) and the discovery of a new, blind Native Silver vein reporting 6,440 g/t Silver across 0.2 metres. The holes were drilled in the historic Silver Zone on the district's west side.

In September 2023, the Company, along with Reyna Gold Corp., reported entering into a Property Option Agreement (the "**Option Agreement**") with Golden Gryphon USA Inc. ("**Gryphon**") on the Gryphon Summit Project located in Eureka and Elko Counties, Nevada ("**Gryphon Project**"). The Gryphon Project comprises 1286 unpatented and 8 patented lode mining claims located in the Diablo Range, which lies in an area between the Carlin and Eureka-Battle Trends of north-central Nevada. The 10,300-hectare Gryphon Project covers 8 by 16 kilometers of ground laced by well-developed, variably mineralized structures. The Option Agreement gave the Company and Reyna Gold, jointly, the ability to earn up to a 70% equity interest in the Project. Upon exercising the option in full, a new joint venture between Gryphon, on the one hand, and the Company and Reyna Gold Corp., on the other hand, will be formed to further explore and develop the Gryphon Project.

In November 2023, the Company, along with Reyna Gold Corp., reported that the undertaking of an independent NI 43-101 – *Standards of Disclosure for Mineral Projects* compliant technical report.

On March 13, 2024, the Company reported that it had closed a listed issuer financing exemption (LIFE) private placement of 25,848,391 units for aggregate gross proceeds of approximately \$3,101,807 and a non-brokered private placement to non-LIFE investors of 12,484,943 units for aggregate gross proceeds of \$1,498,193. The units offered were sold at a price of \$0.12 per unit and consisted of one common share and one common share purchase warrant (exercisable at \$0.20 for a period of 36 months). Between both the LIFE financing and the non-LIFE financing (collectively, the "**Q1 Financing**"), the Company issued 38,333,334 units for aggregate gross proceeds of approximately \$4,600,000.

On April 18, 2024, the Company announced the Offering. On May 3, 2024, the Company announced a first closing of the Offering for 9,078,750 Units for gross proceeds of \$1,452,600 (the "**First Closing**").

3 Material facts

There are no material facts about the securities being distributed that have not been disclosed in this offering document or in any other document filed by the Company in the 12 months preceding the date of this offering document.

4 What are the business objectives that we expect to accomplish using the available funds?

The Company intends to use the net proceeds from the Offering and the Q1 Financing for the exploration of the Guigui Project, Batopilas Project and Medicine Springs Project, other exploration work and for general corporate and working capital purposes. The Company's priorities are:

Business Objectives	Preceding Significant Event(s) (each, an "Event")	Expected Time Period for Event	Cost related to Event
Exploration and drilling at the Gryphon Project and the Medicine Springs Project.	N/A	12 months	\$2,000,000
Land holdings, including mandatory payments under the Gryphon Project option agreement.	N/A	12 months	\$350,000
Completing the previously announced technical report relating to the Gryphon Project.	N/A	12 months	\$30,000
Total			\$2,380,000

PART 3 USE OF AVAILABLE FUNDS

1 What will our available funds be upon the closing of the offering?

The expected availability of funds is approximately \$4,116,000 and \$4,412,000 assuming the First Closing only and the maximum Offering size, respectively.

		Assuming First Closing only	Assuming maximum Offering
A.	Amount to be raised by this offering	\$1,453,000	\$1,771,000
B.	Selling commissions and fees ⁽²⁾	\$102,000	\$124,000
C.	Estimated offering costs (e.g., legal, accounting, audit)	\$35,000	\$35,000
D.	Net proceeds of offering: $D = A - (B+C)$	\$1,520,000	\$1,612,000
E.	Working capital as at most recent month end (deficiency) ⁽¹⁾	\$2,800,000	\$2,800,000
F.	Additional sources of funding ⁽¹⁾	-	-
G.	Total available funds: $G = D+E+F$	\$4,116,000	\$4,412,000

(1) Includes net proceeds of Q1 Financing.

(2) Assumes 7% finder's fees paid on all subscription proceeds. Actual finder's fees paid may be lower.

2 How will we use the available funds?

Description of intended use of available funds listed in order of priority	Assuming First Closing only	Assuming maximum Offering
Exploration and drilling and land holding costs and project payments	\$3,416,000	\$3,712,000
General and administrative expenses	\$500,000	\$500,000
Unallocated working capital	\$200,000	\$200,000
Total	\$4,116,000	\$4,412,000

The above noted allocation and anticipated timing represents the Company's current intentions with respect to its use of proceeds based on current knowledge, planning and expectations of management of the Company. Although the Company intends to expend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent

or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan.

The most recent audited annual financial statements and interim financial report of the Company included a going-concern note. The Company is still in the exploration stage and the Company has not yet generated positive cash flows from its operating activities, which may cast doubt on the Company's ability to continue as a going concern. The Offering is intended to permit the Company to continue to explore its properties and conduct additional drilling, and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Company.

3 How have we used the other funds we have raised in the past 12 months?

Previous financing activity	Intended Use of Funds	Use of Funds to Date
\$4,600,000 Q1 Financing	Exploration and drilling and land holding costs and project payments and general and administrative expenses	\$1,892,000 ⁽¹⁾

(1) The Company has allocated the funds to date towards offering expenses related to the Q1 Financing, general and administrative expenses and for land holding costs, project payments and exploration and drilling expenses. There are no material variances between the previously disclosed use of funds and the use of such funds to date.

PART 4 FEES AND COMMISSIONS

1 Who are the dealers or finders that we have engaged in connection with this offering, if any, and what are their fees?

The Company may pay certain eligible finders a cash fee of up to 7% of the gross proceeds raised in respect of the Offering from subscribers introduced by such finders to the Company. The Company may also issue to eligible finders such number of finder warrants (each, a "**Finder Warrant**") equal to 7% of the number of Units sold under the Offering to subscribers introduced by such finders to the Company. The Finder Warrants, to the extent they are issued, shall entitle the holder thereof to acquire one Common Share at a price of \$0.16 per Common Share for a period of 24 months from the date of issuance.
